The Best Jordans Shoes line has drawn colorway inspiration from plenty of Nike's past, including the Huarache Trainer, and the Kobe V. Now we can add Nke SB to that list following Kyrie's new Kyrie III PE from last night.The fictious Nike ABA Team the Roswell Raygun's had two Nike SB colorways made for them, one in Black and one in White (for home and away). The Kyrie III shown off though takes on the "Black Raygun" colorway. emulating the colorway down to the Raygun mascot appearing on the medial.
Latest Jordans Shoes isn't finished with Air Max 1 on its 30th anniversary just yet. We've recieved quite a few OG colorways, but now it looks like we will get a colorway that popped up for the only time back during the OG 1987-1988 run.Released originally as a women's exclusive, the "Aqua" colorway uses the Purple and Turquoise colorway weve become familiar with and adds it as an accent to a white and grey upper.
The Dunk Low Cheap Jordan Shoes is one of the greatest Nike SB's ever, unquestioned. Causing frenzies in NYC unheard of at the time, even 12 years later, the shoe is considered a holy grail in the sneaker world. Though rumors were abound that we were set to get a high top version of the shoe, it appears that we will get the "Pigeon" Sb as a low, albeit in a different colorway.
