

The [Drop Jordan](#) collection has since undergone quite a bit of remodeling with a number of alterations hitting the market over the years. This year, as a bid to pay another homage to the maiden brands of yesteryears particularly the Air Max, Nike has sought to bring back the OG colorway with stunning releases of revised versions. And that's how the [Air Jordan 11 Win Like 96](#) "Obsidian" came into being. The sneakers serve to be a stylish remembrance of those that came before it and paved the way for success. It marks the 30th anniversary since the OG sneakers first entered the fray. Apart from the classy black tick icon on the side of the sneakers, another company trademark resides at the top of the tongue and the back of the heel in the form of a vivid red "Nike Air Max" moniker. A white alteration of the label also inhabits the medial part of the red insole.

The [Buty Jordan Sklep](#) "Obsidian" tells the tale of vibrant colors blending in together to put on a gorgeous display. Its colorway is in line with that of the first air max with the sneakers incorporating the lineage's traditional elegant white and crimson red. The latter is the sneaker's predominant color scheme with it taking most of the upper body canvas save for the light grey shade winding around the side and the face of the tongue.

Prior to the summit white [Cheap Air Max](#) , an obsidian black shade runs throughout the shoe's circumference offering a mesmerizing break to the monotony of the white. The base of the sole is a true work of art as it incorporates a white center separated on either side by a wavy black. Also, the sole consists of a perfect conglomeration of padded and line designs that bring out the best of the two colors in stunning fashion. A dash of scarlet graces the front of the bottom and it continues through to a minute height of the midsole.
