

The [Best Jordans Shoes](#) Mid “Reverse Banned” make up is composed primarily of tumbled leather whose color scheme is a combination of the black toe motif synonymous with the Jordan 1 and a timeless Red pairing. Unlike its predecessor the Air Jordan 1 Mid where black took up the great majority of the shoe’s colorway with red playing second fiddle, the tables are turned this time around with red commanding the lion’s share thereby earning it the sobriquet “Reverse Banned”. The insole continues the recurring red theme albeit with a miniature white walkman defiantly poised near the edge. A black version also stakes claim to the top of the tongue bringing down the curtains on the upper body display in slick fashion. So after a bit of tweaking and experimentation the [Latest Jordans Shoes](#) Mid “Reverse Banned” was born with it borrowing a lot of aspects from its inspiration model although with a bit of role-reversing in the color spectrum. Apart from the toe area, these new Jordans also incorporate a host of sparkling black patches that are spread out alluringly throughout the heel area with a touch of similarly colored trademark logos donning the slightly darker red of the sides. A white midsole gracefully separates the enthralling red residing on either side of the divide. While the outsole is engulfed by the darkness of the overflowing red, [Cheap Jordan Shoes](#) is nothing subtle about the bottom which features a mix of artistic imprints. The front half consists of a ripple pattern separated by a snow cone group of line contours that pierces through the middle of the circle to one end. The second half, on the other hand, has a beautiful pin and box combo with a host of line depressions working their way around the core.
