

The [Buty Jordan Sklep](#) feature a lightly perforated white mesh base complete with weaving textile canvas lacing eyelets while a supportive synthetic ankle cage provides a lock down feel. A cushioned midsole unit and white rubber outsole close out the monochromatic silhouette for a nice crisp look to close out the summer in. The [Buty Jordan Damskie](#) features a black suede constructed base complete with a supportive grooved leather heel panel, black suede crossing midfoot straps cover the vamp of the sneaker while a 'Gym Red' Jumpman embroidered chenille patches sit on the satin tongue of the kicks, the rear graphic heel panel holds shades of 'Wolf Grey', the year 1993 is embroidered on the heel tabs of the kicks as a nod to Mike's first three peat with Chicago Bulls while a gradient 'Wolf Grey' midsole, and 'Gym Red' rubber outsole round out the kicks.

[Barato Air Max Venta](#) is working hard to prepare the rollout of the Jordan Spiz'ike for a bunch of colorway re-releases as well as some new colorways. One of those new colorways is the Jordan Spiz'ike 'Gym Red'. This shoe features a red and white leather upper with accents of black on the eyelets and inner lining. The Jordan "Jumpman" branding is also done in black. The mid-sole is done in red and white as well, while the outsole is done in grey. The shoe is finished off with a clear lace lock and red laces. Surprisingly, this is one of the only Jordan Spiz'ikes that does not feature Jordan Brand's signature elephant print.
